BRC Global Standard for Storage & Distribution Issue 2	Product Safety & Quality Policy Statement	SM.1
		Date: 14th January 2016
		BRC Ref; 1.1.1
		Page 1 of 1

Chiltern Transport & Warehousing Limited recognises that concern for food and product safety is an integral and fundamental part of our business.

We are aware that some of our operations have an impact on food and product safety and quality and are fully committed at every level of the organisation to achieving continuous improvements in our performance.

The company undertakes to implement, manage and maintain a management system that is compliant to **BRC Global Standard for Storage & Distribution for the collection, storage, order picking and delivery of ambient food products.**

Our practices and procedures as part of this management system include:

- *Adherence to the British Retail Consortium standard for storage and distribution.*
- *We are committed to ensuring that our organisation provides safe and legal products and are compliant to applicable regulations, legislation and other requirements, including customers.*

To ensure that our management system remains effective and our goals are achieved, we set and measure ourselves against quality targets, and subject our management system to regular internal and external audits and review both of which are formally discussed during the annual management review meeting.

As Managing Director, I take full responsibility to ensure that this policy is communicated and implemented throughout the organisation and any other interested parties. This will be achieved during induction, on-going training and it's understanding verified during periodic internal audits of our management system.

**Approved By
Keith Croker
Managing Director**
